# Envision<sup>®</sup> TRASH BAGS

## GENERAL PURPOSE TRASH BAGS HIGH DENSITY LINERS

The high molecular weight of the high density polyethylene resin produces a **general purpose liner** that is approximately 1/3 the weight of traditional can liners. The use of fewer raw materials returns less plastic to our environment.

Other Sizes Available Upon Request

## LINEAR LOW DENSITY LINERS

The **linear low density liners** are highly *puncture and tear resistant*. This is the best choice when additional strength and stretch is required. These are an excellent choice for waste with sharp or jagged edges.

## TOTALLY DEGRADABLE BAGS

Choose our **totally degradable bags** for waste destined for the landfill. Our degradable†† bags slowly turn to humus. **Totally degradable bags** discourage the buildup of dangerous methane gases in landfills while preserving valuable landfill space.

## BIODEGRADABLE COMPOST BAGS

Our **Ecosafe™ biodegradable compost bags** are ideal for your smallest gardening project or your largest precision waste program. Use them for everyday use knowing they degrade in a managed compost facility in approximately 90 to 120 days. **Ecosafe™ biodegradable compost† bags** convert into harmless Co<sup>2</sup>, water and humus.
